Your Honor,

I am a certificate holder in the Par Funding case. I know that we are in the end process of the case, I have been watching the hearings on zoom, I have one question that I would like to ask, the receiver has said that there was \$ 550 million dollars taken in by Par and they paid approximately \$ 300 million paid to investors, that leaves \$250 million to be returned . through different statements and reporting articles that i have heard they say we are owed \$365 million . could you you get the receiver to explain that the 250 is the principle minus the interest, because he said there are tens of millions still owed that customers are paying back plus the real estate. I am counting He has 116 million in the bank and the Laforts have to pay \$143 plus Barletta and Furman owe another 20 million. If you total all the cash that comes to \$ 279 million which would be enough to give people their amount that they invested . I would be very happy to get all my initial principle back and weight for any interest that I am due.

I feel you have done an excellent job ,being very concerned about us getting our monies back. It has been along 32 months waiting to get this over and done with.

I will be listening to the hearing in January, I hope you can understand what I am asking for and mention it in the hearing . I am sure everyone would be glad to hear that we are getting our principle back even if we don't get any interest.

Sincerely,

A handwritten signature in blue ink that reads "John Vagnozzi".
