TOGETHER with the free and common use, right, liberty and privilege of the above mentioned driveway at all times hereafter, forever.

BEING known at 4633 Walnut Street.

OPA No. 601041500.

BEING the same premises which Walnut Street Partners, LLC by Deed dated 5/2/2018 and recorded 5/10/2018 in the Office of the Recorder of Deeds in and for the Count of Philadelphia in Document No. 53362740, granted and conveyed unto 4633 Walnut ST LLC.

I have personal knowledge of the facts detailed in this Declaration and make this Declaration in support of the Proposed Sale of the Property.

- 2. Specifically, and as detailed further herein, I have completed my marketing efforts for the Walnut Street Property in accordance with this Court's prior Order, and now respectfully request that the Court enter an Order authorizing and approving my proposed sale of the Property.
- 3. As authorized by the Amended Order Appointing Receiver [ECF No. 141] and the Order (1) Authorizing Receiver's Sale of All Real Property Within the Receivership Estate; (2) Compelling Lisa McElhone and Joseph LaForte to Vacate and Surrender Haverford Home or, in the Alternative, Pay Obligations for Single-Family homes [ECF 1486], I engaged a licensed real estate broker with decades of experience in the relevant Philadelphia neighborhood ("Broker") as

the real property broker for the purposes of marketing the Property in anticipation of a sale of the Property out of receivership. In conformity with my instructions, the Broker has marketed the Property in a manner consistent with ordinary custom and practice for sales of similar properties in Philadelphia, Pennsylvania. These efforts included marketing on the Broker's website and on the Multiple Listing Service. The Property was listed for \$865,0000. Located in the Walnut Hill neighborhood in Philadelphia, the Property was built in 1925 and rehabilitated in approximately 2017. It borders the University of Pennsylvania campus.

- 5. Before listing the Property, I obtained a Pennsylvania Certified Residential Appraisal of the Property dated April 7, 2023 (the "First Appraisal"). The First Appraisal valued the Property at \$850,000. A true and correct copy of this Appraisal is attached as **Exhibit A**.
- 6. The First Appraisal, in part, was based on sales comparisons with two newly constructed units in a different Philadelphia neighborhood. Each of those newly constructed units contain greater square footage and enjoy a longer, more robust property tax abatement than the Walnut Street Property.
- 7. Before listing the Property, I also had obtained Opinions of Value from the office of the current property manager (which also includes a licensed Broker) and the Broker. The Opinions of Value, based on comparative sales, ranged from \$660,000 to \$725,000 (the "Opinions of Value").
- 8. Given the divergence between the First Appraisal, on the one hand, and the Opinions of Value, on the other hand, and based on feedback received from prospective buyers, I obtained a Second Pennsylvania Certified Residential Appraisal of the Property on July 28, 2023

[the "Second Appraisal]. A true and correct copy of this Appraisal is attached as **Exhibit B**. According to this appraisal, the Property is valued at \$665,000.²

- 9. As a result of my marketing efforts, I have received an offer from W.X.L³, a third party unaffiliated with the Receivership Entities ("Buyer"), to purchase the Property out of receivership for \$700,000. The Buyer's offer is higher than the Second Appraisal of the Property and within the range of the Opinions of Value. It is an "all cash" offer with no contingencies. In my reasonable business judgment, I believe Buyer's offer to purchase the Property for \$700,000 is appropriate, and consistent with the Property's current market value. As a result, on or about August 08, 2023, I entered into a contingent Purchase and Sale Agreement ("Contract") for the Property with Buyer, a true and correct copy of which is attached hereto as **Exhibit C** to this Declaration, and which has been redacted for security purposes. Closing is scheduled for September 15, 2023.
- 10. Pursuant to the Contract, performance of which is contingent upon an Order from this Court approving and authorizing the proposed sale of the Property to Buyer, the sale of the Property will be made on an "as-is / where-is basis," with no representations or warranties on my part, individually or on behalf of the Receivership Entities, except as expressly set forth in the Contract. In the event that the Court authorizes and approves the proposed sale of the Property as provided for in the Contract, and the sale is consummated, the Broker will receive a commission of 5% of the sales price, consistent with ordinary custom and practice.
- 10. Accordingly, I respectfully request that this Court enter an Order approving the sale of the Walnut Street Property, as provided for in the Contract.

² For security purposes, the Appraisers' identities have been redacted.

³ For security purposes, the Buyer's identity has been redacted.

I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge, information, and belief.

Executed on August 16, 2023. /s/ Ryan K. Stumphauzer

Small Residential Income Property Appraisal Report File No. S2303

Scope of Work, Assumptions and Limiting Conditions

Scope of work is defined in the Uniform Standards of Professional Appraisal Practice as " the type and extent of research and analyses in an assignment." In short, scope of work is simply what the appraiser did and did not do during the course of the assignment. It includes, but is not limited to: the extent to which the property is identified and inspected, the type and extent of data researched, the type and extent of analyses applied to arrive at opinions or conclusions.

The scope of this appraisal and ensuing discussion in this report are specific to the needs of the client, other identified intended users and to the intended use of the report. This report was prepared for the sole and exclusive use of the client and other identified intended users for the identified intended use and its use by any other parties is prohibited. The appraiser is not responsible for unauthorized use of the report.

The appraiser's certification appearing in this appraisal report is subject to the following conditions and to such other specific conditions as are set forth by the appraiser in the report. All extraordinary assumptions and hypothetical conditions are stated in the report and might have affected the assignment results.

- 1. The appraiser assumes no responsibility for matters of a legal nature affecting the property appraised or title thereto, nor does the appraiser render any opinion as to the title, which is assumed to be good and marketable. The property is appraised as though under responsible ownership.
- 2. Any sketch in this report may show approximate dimensions and is included only to assist the reader in visualizing the property. The appraiser has made no survey of the property.
- 3. The appraiser is not required to give testimony or appear in court because of having made the appraisal with reference to the property in question, unless arrangements have been previously made thereto.
- 4. Neither all, nor any part of the content of this report, copy or other media thereof (including conclusions as to the property value, the identity of the appraiser, professional designations, or the firm with which the appraiser is connected), shall be used for any purposes by anyone but the client and other intended users as identified in this report, nor shall it be conveyed by anyone to the public through advertising, public relations, news, sales, or other media, without the written consent of the appraiser.
- 5. The appraiser will not disclose the contents of this appraisal report unless required by applicable law or as specified in the Uniform Standards of Professional Appraisal Practice.
- 6. Information, estimates, and opinions furnished to the appraiser, and contained in the report, were obtained from sources considered reliable and believed to be true and correct. However, no responsibility for accuracy of such items furnished to the appraiser is assumed by the appraiser.
- 7. The appraiser assumes that there are no hidden or unapparent conditions of the property, subsoil, or structures, which would render it more or less valuable. The appraiser assumes no responsibility for such conditions, or for engineering or testing, which might be required to discover such factors. This appraisal is not an environmental assessment of the property and should not be considered as such.
- 8. The appraiser specializes in the valuation of real property and is not a home inspector, building contractor, structural engineer, or similar expert, unless otherwise noted. The appraiser did not conduct the intensive type of field observations of the kind intended to seek and discover property defects. The viewing of the property and any improvements is for purposes of developing an opinion of the defined value of the property, given the intended use of this assignment. Statements regarding condition are based on surface observations only. The appraiser claims no special expertise regarding issues including, but not limited to: foundation settlement, basement moisture problems, wood destroying (or other) insects, pest infestation, radon gas, lead based paint, mold or environmental issues. Unless otherwise indicated, mechanical systems were not activated or tested.

This appraisal report should not be used to disclose the condition of the property as it relates to the presence/absence of defects. The client is invited and encouraged to employ qualified experts to inspect and address areas of concern. If negative conditions are discovered, the opinion of value may be affected.

Unless otherwise noted, the appraiser assumes the components that constitute the subject property improvement(s) are fundamentally sound and in working order.

Any viewing of the property by the appraiser was limited to readily observable areas. Unless otherwise noted, attics and crawl space areas were not accessed. The appraiser did not move furniture, floor coverings or other items that may restrict the viewing of the property.

Reproduction or Replacement cost figures used in the cost approach are for valuation purposes only, given the intended use of the assignment. Definition of Value: X Market Value Other Value:
Source of Definition: The Dictionary of Real Estate Appraisal, 4th ed.
The definition of "Market Value", as defined by the Office of the Comptroller of Currency (OCC) under 12 CFR, Part 34, Subpart C
Appraisals,

34.42 Definitions, the Board of Governors of the Federal Reserve System (FRS) and the Federal Deposit Insurance Corporation in compliance with Title XI of FIRREA, as well as by the Uniform Standards of Appraisal Practice as promulgated by the Appraisal Foundation is as follows;

Market value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby,

- 1. Buyer and seller are typically motivated;
- 2. Both parties are will informed or well advised, and acting in what they consider their own best interest;
- A reasonable time is allowed for exposure in the open market;
- 4. Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
- 5. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

Client: Pietragallo Gordon Alfano Bosick & Raspanti, LLP	File No.: S2303166			
Property Address: 4633 Walnut Street	Case N	No.:

Neighborhood Description

The subject is situated in a section of West Philadelphia known as Walnut Hill. Dwellings in the area consist mostly of 1-4 family attached and semi-detached styles of various designs. Area is well situated to major access routes including Market Street, Baltimore Pike and Woodland Avenue, which provide convenient proximity to local schools, shopping and public transportation. Major employment areas can be reached within 15 minutes via public transportation. Neighborhood appears stable with no apparent adverse factors noted to affect the ability of the subject to be marketable.

HIGHEST AND BEST USE

Highest & Best Use-The reasonably probable and legal use of vacant land or an improved property that is physically possible, appropriately supported, financially feasible, and that results in the highest value.

Based on the above definition and an analysis of the subjects market and it's overall appeal and marketability within that market, the current use represents the highest and best use.

SUMMARY OF SALES COMPARISON APPROACH

Gross living area adjustments have been calculated at \$50.00 per sq.ft.

Adjustments for differences in lot size cannot be accurately quantified in the market. Adjustments are not made simply because of differences, rather, adjustments must be quantifiable. Market research does not provide a clear indication for a monetary adjustment.

The subject neighborhood exhibits a wide range in values. The estimated value of the subject property is somewhat above the predominant value, but well within the range exhibited for the neighborhood. The comparable sales are all situated within the subjects immediate area, and demonstrate the marketability of homes in the subjects value range.

Due to a lack of recent relevant sales data in the subjects market area, it was necessary to extend our marketing time in our search for comparable sales data. The sales exhibited were sold under economic conditions which are similar to those which exist at the time of this appraisal on the subject property. Thus, no time adjustment is warranted. The sales data represented in this report was the best available market data, and after necessary adjustments provide good indicators of the subjects market value.

FINAL RECONCILIATION

Sale Comparison Approach most accurately reflects motivations and reactions of typical buyers. The Cost Approach is not considered relevant for residential properties of this type. The Income Approach has been developed, is considered relevant for residential properties of this type, and provides further support of the sales comparison approach. The subject is an income producing property and is typically purchased for that purpose in this neighborhood. The home was built in 1925+/-. The cost approach is relevant for new construction and for older homes that have been completely (or significantly) renovated. That does not apply in this case.

CONDITIONS OF APPRAISAL

Appraisal Report; Prepared in Accordance with USPAP Standards Rule 2-2(a)

The proximity of commercial propertie(s) within the subject neighborhood is an acceptable influence with no adverse impact on the ability of the subject to be marketable.

The determination of an estimated market value involved a number of processes. After the problem was defined and the work planned, the subject was physically inspected on both the interior and exterior. Sales data was collected from several sources including town hall records, real estate brokers and multiple listing service. When applicable, the Marshall and Swift Residential Cost Handbook has been consulted to estimate reproduction costs. A report of these findings will be included as an attachment to this appraisal.

Items of personal property had no impact on the determination of the appraised value of the subject property.

This appraisal report contains an electronic signature.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what they consider their own best interests; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale. (Source: FDIC Interagency Appraisal and Evaluation Guidelines, 2010.)

* Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF LIMITING CONDITIONS AND CERTIFICATION

CONTINGENT AND LIMITING CONDITIONS: The appraiser's certification that appears in the appraisal report is subject to the following conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is valued on the basis of it being under responsible ownership.
- 2. Any sketch provided in the appraisal report may show approximate dimensions of the improvements and is included only to assist the reader of the report in visualizing the property. The appraiser has made no survey of the property.
- 3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 4. Any distribution of valuation between land and improvements in the report applies only under the existing program of utilization. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used.
- 5. The appraiser has no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous waste, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. This appraisal report must not be considered an environmental assessment of the subject property.
- 6. The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.
- 7. The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.
- 8. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that completion of the improvements will be performed in a workmanlike manner.
- 9. The appraiser must provide his or her prior written consent before the lender/client specified in the appraisal report can distribute the appraisal report (including conclusions about the property value, the appraiser's identity and professional designations, and references to any professional appraisal organizations or the firm with which the appraiser is associated) to anyone other than the borrower; the mortgagee or its successors and assigns; the mortgage insurer; consultants; professional appraisal organizations; any state or federally approved financial institution; or any department, agency, or instrumentality of the United States or any state or the District of Columbia; except that the lender/client may distribute the property description section of the report only to data collection or reporting service(s) without having to obtain the appraiser's prior written consent. The appraiser's written consent and approval must also be obtained before the appraisal can be conveyed by anyone to the public through advertising, public relations, news, sales, or other media.
- 10. The appraiser is not an employee of the company or individual(s) ordering this report and compensation is not contingent upon the reporting of a predetermined value or direction of value or upon an action or event resulting from the analysis, opinions, conclusions, or the use of this report. This assignment is not based on a required minimum, specific valuation, or the approval of a loan.

CERTIFICATION: The appraiser certifies and agrees that:

- 1. The statements of fact contained in this report are true and correct.
- 2. The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- 3. Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- 4. Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- 5. I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
- 6. My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- 7. My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- 8. My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- 9. Unless otherwise indicated, I have made a personal inspection of the interior and exterior areas of the property that is the subject of this report, and the exteriors of all properties listed as comparables.
- 10. Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

STATEMENT OF ASSUMPTIONS & LIMITING CONDITIONS

- The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis
- of it being under responsible ownership.
- The appraiser may have provided a sketch in the appraisal report to show approximate dimensions of the improvements, and any such sketch
- is included only to assist the reader of the report in visualizing the property and understanding the appraiser's determination of its size. Unless otherwise indicated, a Land Survey was not performed.
- If so indicated, the appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or
- data sources) and has noted in the appraisal report whether the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand. - If the cost approach is included in this appraisal, the appraiser has estimated the value of the land in the cost approach at its highest and
- best
- use, and the improvements at their contributory value. These separate valuations of the land and improvements must not be used in conjunction
- with any other appraisal and are invalid if they are so used. Unless otherwise specifically indicated, the cost approach value is not an insurance
- value, and should not be used as such.
- The appraiser has noted in the appraisal report any adverse conditions (including, but not limited to, needed repairs, depreciation, the presence
- of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property, or that he or she became aware of during the
- normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any

hidden or unapparent conditions of the property, or adverse environmental conditions (including, but not limited to, the presence of hazardous

wastes, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and

makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any

such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the

appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered as an environmental assessment

the property.

- The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such
- that were furnished by other parties.
- The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.
- If this appraisal is indicated as subject to satisfactory completion, repairs, or alterations, the appraiser has based his or her appraisal
- and valuation conclusion on the assumption that completion of the improvements will be performed in a workmanlike manner.
- An appraiser's client is the party (or parties) who engage an appraiser in a specific assignment. Any other party acquiring this report from
- client does not become a party to the appraiser-client relationship. Any persons receiving this appraisal report because of disclosure requirements
- applicable to the appraiser's client do not become intended users of this report unless specifically identified by the client at the time of the assignment.
- The appraiser's written consent and approval must be obtained before this appraisal report can be conveyed by anyone to the public, through advertising, public relations, news, sales, or by means of any other media, or by its inclusion in a private or public database.
- An appraisal of real property is not a 'home inspection' and should not be construed as such. As part of the valuation process, the appraiser performs a non-invasive visual inventory that is not intended to reveal defects or detrimental conditions that are not readily apparent. The presence
- of such conditions or defects could adversely affect the appraiser's opinion of value. Clients with concerns about such potential negative

are encouraged to engage the appropriate type of expert to investigate.

The Scope of Work is the type and extent of research and analyses performed in an appraisal assignment that is required to produce credible assignment results, given the nature of the appraisal problem, the specific requirements of the intended user(s) and the intended use of the appraisal report. Reliance upon this report, regardless of how acquired, by any party or for any use, other than those specified in this report

the Appraiser, is prohibited. The Opinion of Value that is the conclusion of this report is credible only within the context of the Scope of Work, Effective Date, the Date of Report, the Intended User(s), the Intended Use, the stated Assumptions and Limiting Conditions, any Hypothetical Conditions and/or Extraordinary Assumptions, and the Type of Value, as defined herein. The appraiser, appraisal firm, and related parties assume no obligation, liability, or accountability, and will not be responsible for any unauthorized use of this report or its conclusions.

REASONABLE EXPOSURE TIME AS REFERENCED IN THE DEFINITION OF VALUE INCLUDED IN THIS REPORT IS CONCLUDED TO BE EQUAL TO THE MARKETING TIME REPORTED ON PAGE 1 OF THE REPORT, UNDER NEIGHBORHOOD HOUSING TRENDS.

THE APPRAISER CERTIFIES THAT TO THE BEST OF THE APPRAISER'S KNOWLEDGE AND BELIEF, NO OTHER SERVICES HAVE BEEN PERFORMED, AS AN APPRAISER OR IN ANY OTHER CAPACITY, REGARDING THE PROPERTY THAT IS THE SUBJECT OF THIS REPORT WITHIN THE 3 YEAR PERIOD IMMEDIATLY PRECEDING ACCEPTANCE OF THIS ASSIGNMENT.

THE PORCH/PATIO/DECK ADJUSTMENT LINE ON THE GRID IS NOT ADJUSTED FOR AS IT APPEARS THE DIFFERENCE IN THESE ITEMS IS NOMINAL AND THERE IS NO MARKET REACTION. ALSO THE APPRAISER CAN NOT DETERMINE HOW SUBSTANTIAL THE PORCH, PATIO, OR DECK IMPROVEMENT IS FOR THE COMPS BASED ON THE MLS LISTINGS PROVIDED. IN ADDITION FIREPLACES/WOODSTOVES AND FENCES IN THIS MARKET DO NOT HAVE A MARKET REACTION, SO THEY ARE NOT GRIDDED OR ADJUSTED FOR.

NO PERSONAL PROPERTY WAS INCLUDED IN THE VALUE ESTIMATE.

SELLER'S CONCESSIONS ARE NOT ADJUSTED FOR AS THEY ARE CONSIDERED TO BE COMMON TO THE MARKET AREA AND NOT VALUE IMPACTING. THERE APPEARS TO BE NO MARKET REACTION.

THE ADJUSTMENTS TO THE COMPARABLES WERE DERIVED FROM A COMBINATION OF PAIRED ANALYSIS, MARKET REACTION, INTERVIEWS WITH LOCAL MARKET PARTICIPANTS AND REALTORS, AND IN ALL CASES TO CENTRALIZE THE ADJUSTED VALUE RANGE. WHOLE DOLLAR AND PERCENTAGE MARKET BASED ADJUSTMENTS ARE GROUNDED IN PAIRED SALES ANALYSES. HOWEVER, THERE ARE TYPICALLY TOO MANY DIFFERENCES IN THE VARIOUS VALUE-INFLUENCING CHARACTERISTICS OF A PACKAGE OF FIVE OR SIX COMPARABLES TO RELIABLY EXTRACT EACH ADJUSTMENT DESIRED. CONSEQUENTLY MANY OF THE QUANTITATIVE ADJUSTMENTS THAT ARE USED STEM FROM THE ABOVE NOTED SOURCES AND THE APPRAISER'S BEST ESTIMATE.

THERE IS INSUFFICIENT EVIDENCE TO WARRANT A LIST PRICE RATIO ADJUSTMENT. ALTHOUGH SOME LISTINGS SETTLE BELOW THE LIST PRICE, THERE ARE PROPERTIES THAT SELL AT OR ABOVE THE LIST PRICE. A LIST PRICE RATIO ADJUSTMENT IS SPECULATION BASED ON A BROAD MARKET STATISTIC AND IN THE OPINION OF THE APPRAISER DOES NOT YIELD RELIABLE RESULTS.

PREDOMINATE VALUE: THE SUBJECT NEIGHBORHOOD IS NOT HOMOGENEOUS, AND CONTAINS A WIDE VARIETY OF PROPERTY DESIGNS AND STYLES, WHICH SELL AT A BROAD RANGE OF PRICES. THE PREDOMINATE VALUE SHOWN ON PAGE 1 OF THE URAR, INDICATES THE "MODE", A STATISTICAL TERM REFERRING TO THE MOST FREQUENTLY OCCURRING VARIANT IN A DATA SET. THIS TYPICALLY HAS NOTHING TO DO WITH THE SUBJECT'S RELATIONSHIP WITHIN THE NEIGHBORHOOD, AND SHOULD NOT BE CONSIDERED A BENCHMARK FOR AN OVER OR UNDER IMPROVEMENT. THE SUBJECT'S ESTIMATED VALUE IS WITHIN THE LOW TO HIGH PRICE RANGE FOR THE AREA, AND IS CONSIDERED TO BE AN APPROPRIATE IMPROVEMENT, NOT OVER OR UNDER IMPROVED.

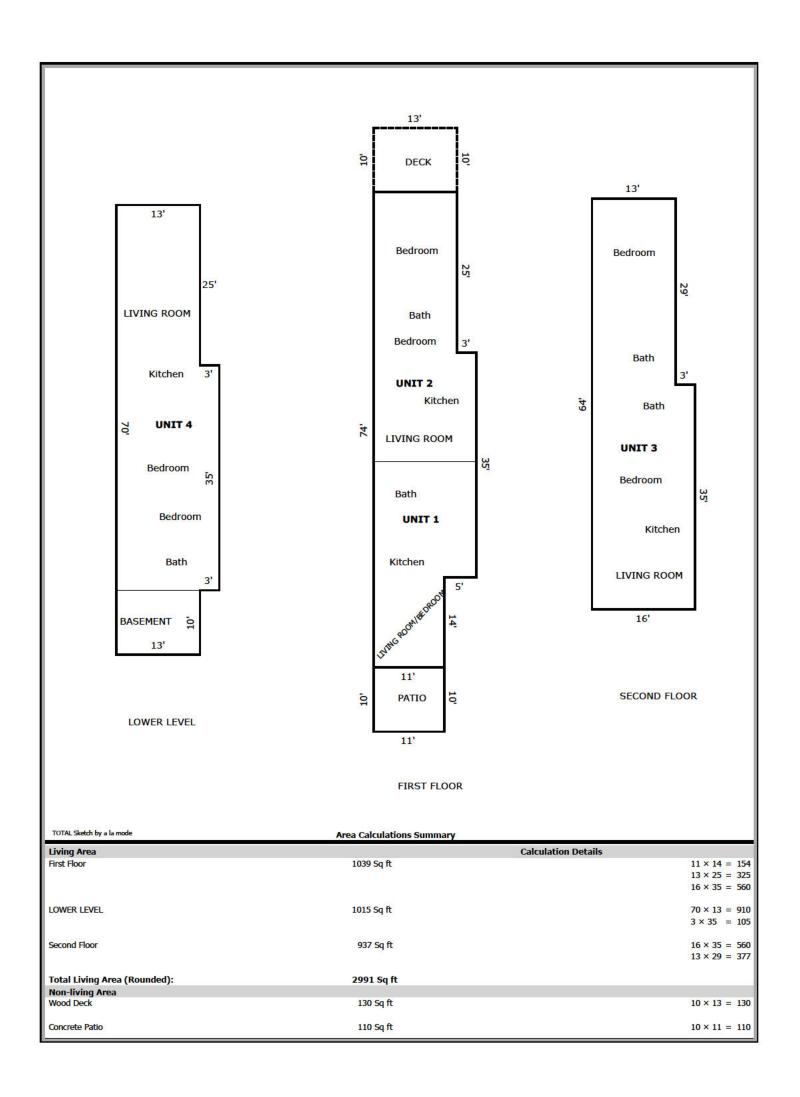

To estimate the highest and best use of a site, the appraiser utilized the four tests of highest and best use.

- 1. Physically possible
- 2. Legally permissible
- 3. Financially feasible
- 4. Maximally productive

Each potential use of the subject was considered by the appraiser in terms of these four tests

BUYER INITIALS SELLER INITIALS

- (c) <u>Closing Costs</u>. Seller and Buyer shall pay closing costs as described in the Closing Cost Allocations (and Closing Agent is authorized to (i) pay Seller's costs from Seller's proceeds, and (ii) pay Buyer's costs from funds deposited into Escrow by Buyer).

If Buyer fails to timely deposit the Earnest Money Deposit, then Seller may immediately terminate this Agreement by written notice to Buyer. Upon any such termination and/or cancellation, the breaching party shall pay any cancellation fees of Closing Agent and Title Insurance Company. If Seller is the breaching party, Closing Agent shall return the Earnest Money Deposit to Buyer, and Buyer shall be entitled to pursue remedies at law or in equity. If Buyer is the breaching party, then the following shall apply:

BUYER AND SELLER AGREE THAT IT WOULD BE EXTREMELY DIFFICULT TO DETERMINE SELLER'S ACTUAL DAMAGES RESULTING FROM A BREACH BY BUYER. IN THE EVENT OF A BREACH BY BUYER, SELLER SHALL BE ENTITLED TO AN AMOUNT EQUAL TO THE EARNEST MONEY DEPOSIT AS LIQUATED DAMAGES AND AS SELLER'S EXCLUSIVE REMEDY. AGREES THAT SUCH AMOUNT IS A REASONABLE PRE-ESTIMATE OF SELLER'S ACTUAL DAMAGES FOR BREACH OF THIS AGREEMENT AND IS NOT A PENALTY. IF CLOSING AGENT IS IN POSSESSION OF THE EARNEST MONEY DEPOSIT, THEN CLOSING AGENT SHALL DELIVER THE EARNEST MONEY DEPOSIT TO SELLER. DESPITE THE FOREGOING, IF APPLICABLE LAW LIMITS THE AMOUNT OF THE LIQUIDATED DAMAGES PAYABLE TO SELLER UPON A BREACH BY BUYER, SELLER SHALL ONLY BE ENTITLED TO THE AMOUNT PERMITTED BY LAW, AND ANY EXCESS SHALL BE PROMPTLY RETURNED TO BUYER.

That Buyer is not acting directly or indirectly for or ou behalf of any of the Disqualified Parties in connection with the purchase and sale of the Property.
