### Case 9:20-cv-81205-RAR Document 1679-1 Entered on FLSD Docket 08/25/2023 Page 4 of 66

2. Specifically, and as detailed below, I have completed my marketing efforts for the Olive Street Property in accordance with this Court's prior Order, and now respectfully request that the Court enter an Order authorizing and approving my proposed sale of the Property.

3. As authorized by the Amended Order Appointing Receiver [ECF No. 141] and the Order (1) Authorizing Receiver's Sale of All Real Property Within the Receivership Estate; (2) Compelling Lisa McElhone and Joseph LaForte to Vacate and Surrender Haverford Home or, in the Alternative, Pay Obligations for Single-Family homes [ECF 1486], I engaged a licensed real estate broker with decades of experience in the relevant Philadelphia neighborhood ("Broker") as the real property broker for the purposes of marketing the Property in anticipation of a sale of the Property out of receivership. In conformity with my instructions, the Broker has marketed the Property in a manner consistent with ordinary custom and practice for sales of similar properties in Philadelphia, Pennsylvania. These efforts included marketing on the Broker's website and on the Multiple Listing Service.

4. On July 17, 2017, James LaForte, as the sole member of 118 Olive Street LLC, acquired the Property from 116-118 Olive LLC for \$580,000. On April 29, 2019, LaForte, through 118 Olive Street LLC, sold the property to 118 Olive PA LLC for \$740,000.00. 118 Olive PA LLC is the entity for which I have been appointed as Receiver.

5. Before listing the Property, I obtained a Pennsylvania Certified Residential Appraisal of the Property dated April 7, 2023 (the "First Appraisal"). The First Appraisal valued the Property at \$570,000. A true and correct copy of this Appraisal is attached as **Exhibit A**.

6. Before listing the Property, I also obtained Opinions of Value from the office of the current property manager (which also includes a licensed Broker) and the Broker. The Opinions

- 3 -

of Value, based on comparative sales, ranged from \$660,000 to \$710,000 ("the Opinions of Value").

7. I initially listed the Property for sale for \$725,000, in excess of the highest range of the Opinions of Value.

8. Given the divergence between the First Appraisal, on the one hand, and the Opinions of Value, on the other hand, I obtained a Second Pennsylvania Certified Residential Appraisal of the Property on August 8, 2023 (the "Second Appraisal"), from a different, independent Appraiser (the "Second Appraiser"). A true and correct copy of this Appraisal is attached as **Exhibit B**. The Second Appraiser also valued the Property at \$570,000.<sup>2</sup>

9. In light of both Appraisals, which were substantially less than the initial listing price, and based on feedback from potential buyers I reduced the listing price to \$679,000.

10. As a result of my marketing efforts, I have received an offer from J.L.,<sup>3</sup> a third party unaffiliated with the Receivership Entities ("Buyer"), to purchase the Property out of receivership for \$661,000. The Buyer's offer is substantially higher than both Appraisals of the Property and is consistent with the lower range of the Opinions of Value. It is an "all cash" offer with no contingencies. In my reasonable business judgment, I believe Buyer's offer to purchase the Property for \$661,000 is appropriate, and consistent with the Property's current market value. As a result, on or about August 16, 2023, I entered into a contingent Purchase and Sale Agreement ("Contract") for the Property with Buyer, a true and correct copy of which is attached hereto as

<sup>&</sup>lt;sup>2</sup> For security purposes, the Appraisers' identities have been redacted.

<sup>&</sup>lt;sup>3</sup> For security purposes, the Buyer's identity has been redacted.

## Case 9:20-cv-81205-RAR Document 1679-1 Entered on FLSD Docket 08/25/2023 Page 6 of 66

**Exhibit C** to this Declaration, and which has been redacted for security purposes. Closing is scheduled for September 15, 2023.<sup>4</sup>

10. Pursuant to the Contract, performance of which is contingent upon an Order from this Court approving and authorizing the proposed sale of the Property to Buyer, the sale of the Property will be made on an "as-is / where-is basis," with no representations or warranties on my part, individually or on behalf of the Receivership Entities, except as expressly set forth in the Contract. In the event that the Court authorizes and approves the proposed sale of the Property as provided for in the Contract, and the sale is consummated, the Broker will receive a commission of 5% of the sales price, consistent with ordinary custom and practice.

10. Accordingly, I respectfully request that this Court enter an Order approving the sale of the Olive Street Property, as provided for in the Contract.

I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge, information, and belief.

Executed on August 25, 2023.

<sup>&</sup>lt;sup>4</sup> The Property is located in the Northern Liberties section of Philadelphia. It abuts Interstate 95 at one of the more heavily travelled parts of the highway. The Broker initially conducted fifteen showings. Prospective buyers consistently commented that the Property, listed at \$725,000, was overpriced, particularly given its proximity to Interstate 95. After lowering the listing price to \$679,000, I received renewed interest in the Property, including ten additional showings. I received two offers, each for \$600,000. I ultimately negotiated a best and final offer of \$661,000 with the Buyer.

#### Summary Residential Appraisal Report

File No. S2303170

#### Scope of Work, Assumptions and Limiting Conditions

Scope of work is defined in the Uniform Standards of Professional Appraisal Practice as " the type and extent of research and analyses in an assignment." In short, scope of work is simply what the appraiser did and did not do during the course of the assignment. It includes, but is not limited to: the extent to which the property is identified and inspected, the type and extent of data researched, the type and extent of analyses applied to arrive at opinions or conclusions.

The scope of this appraisal and ensuing discussion in this report are specific to the needs of the client, other identified intended users and to the intended use of the report. This report was prepared for the sole and exclusive use of the client and other identified intended users for the identified intended use and its use by any other parties is prohibited. The appraiser is not responsible for unauthorized use of the report.

The appraiser's certification appearing in this appraisal report is subject to the following conditions and to such other specific conditions as are set forth by the appraiser in the report. All extraordinary assumptions and hypothetical conditions are stated in the report and might have affected the assignment results.

1. The appraiser assumes no responsibility for matters of a legal nature affecting the property appraised or title thereto, nor does the appraiser render any opinion as to the title, which is assumed to be good and marketable. The property is appraised as though under responsible ownership.

2. Any sketch in this report may show approximate dimensions and is included only to assist the reader in visualizing the property. The appraiser has made no survey of the property.

3. The appraiser is not required to give testimony or appear in court because of having made the appraisal with reference to the property in question, unless arrangements have been previously made thereto.

4. Neither all, nor any part of the content of this report, copy or other media thereof (including conclusions as to the property value, the identity of the appraiser, professional designations, or the firm with which the appraiser is connected), shall be used for any purposes by anyone but the client and other intended users as identified in this report, nor shall it be conveyed by anyone to the public through advertising, public relations, news, sales, or other media, without the written consent of the appraiser.

5. The appraiser will not disclose the contents of this appraisal report unless required by applicable law or as specified in the Uniform Standards of Professional Appraisal Practice.

6. Information, estimates, and opinions furnished to the appraiser, and contained in the report, were obtained from sources considered reliable and believed to be true and correct. However, no responsibility for accuracy of such items furnished to the appraiser is assumed by the appraiser.

7. The appraiser assumes that there are no hidden or unapparent conditions of the property, subsoil, or structures, which would render it more or less valuable. The appraiser assumes no responsibility for such conditions, or for engineering or testing, which might be required to discover such factors. This appraisal is not an environmental assessment of the property and should not be considered as such.

8. The appraiser specializes in the valuation of real property and is not a home inspector, building contractor, structural engineer, or similar expert, unless otherwise noted. The appraiser did not conduct the intensive type of field observations of the kind intended to seek and discover property defects. The viewing of the property and any improvements is for purposes of developing an opinion of the defined value of the property, given the intended use of this assignment. Statements regarding condition are based on surface observations only. The appraiser claims no special expertise regarding issues including, but not limited to: foundation settlement, basement moisture problems, wood destroying (or other) insects, pest infestation, radon gas, lead based paint, mold or environmental issues. Unless otherwise indicated, mechanical systems were not activated or tested.

This appraisal report should not be used to disclose the condition of the property as it relates to the presence/absence of defects. The client is invited and encouraged to employ qualified experts to inspect and address areas of concern. If negative conditions are discovered, the opinion of value may be affected.

Unless otherwise noted, the appraiser assumes the components that constitute the subject property improvement(s) are fundamentally sound and in working order.

Any viewing of the property by the appraiser was limited to readily observable areas. Unless otherwise noted, attics and crawl space areas were not accessed. The appraiser did not move furniture, floor coverings or other items that may restrict the viewing of the property.

9. Appraisals involving hypothetical conditions related to completion of new construction, repairs or alteration are based on the assumption that such completion, alteration or repairs will be competently performed.

10. Unless the intended use of this appraisal specifically includes issues of property insurance coverage, this appraisal should not be used for such purposes. Reproduction or Replacement cost figures used in the cost approach are for valuation purposes only, given the intended use of the assignment. The Definition of Value used in this assignment is unlikely to be consistent with the definition of Insurable Value for property insurance coverage/use.

11. The ACI General Purpose Appraisal Report (GPAR<sup>™</sup>) is not intended for use in transactions that require a Fannie Mae 1004/Freddie Mac 70 form, also known as the Uniform Residential Appraisal Report (URAR).

### Case 9:20-cv-81205-RAR Document 1679 ADDENDEND on FLSD Docket 08/25/2023 Page 15 of 66

Client: Pietragallo Gordon Alfano Bosick & Raspanti, LLP	File No.: S2303170		
Property Address: 118 Olive Street	Case No.:		
City: Philadelphia	State: PA	Zip: 19123	

#### Neighborhood Description

The subject is situated in a section of Philadelphia known as Northern Liberties. Dwellings in the area consist mostly of 1-4 family attached, semi-detached and detached styles of various designs. Area is well situated to major access routes including, which provide convenient proximity to local schools, shopping and public transportation. Major employment areas can be reached within walking distance, or by public transportation. Neighborhood appears stable with no apparent adverse factors noted to affect the ability of the subject to be marketable.

#### HIGHEST AND BEST USE

Highest & Best Use-The reasonably probable and legal use of vacant land or an improved property that is physically possible, appropriately supported, financially feasible, and that results in the highest value.

Based on the above definition and an analysis of the subjects market and it's overall appeal and marketability within that market, the current use represents the highest and best use.

#### COMMENTS ON SALES COMPARISON

Gross living area adjustments have been calculated at \$75.00 per sq.ft.

Adjustments for differences in lot size cannot be accurately quantified in the market. Adjustments are not made simply because of differences, rather, adjustments must be quantifiable. Market research does not provide a clear indication for a monetary adjustment.

The subject neighborhood exhibits a wide range in values. The estimated value of the subject property is somewhat above the predominant value, but well within the range exhibited for the neighborhood. The comparable sales are all situated within the subjects immediate area, and demonstrate the marketability of homes in the subjects value range.

Due to a lack of recent relevant sales data in the subjects market area, it was necessary to extend our marketing time in our search for comparable sales data. The sales exhibited were sold under economic conditions which are similar to those which exist at the time of this appraisal on the subject property. Thus, no time adjustment is warranted. The sales data represented in this report was the best available market data, and after necessary adjustments provide good indicators of the subjects market value.

#### REASONS FOR NON-DEVELOPMENT OF A VALUE APPROACH

Standards Rule 1-5

In developing a real property appraisal, when the value opinion to be developed is market value, an appraiser must, if such information is available to the appraiser in the normal course of business: (a) analyze all agreements of sale, options, or listings of the subject property current as of the effective date of the appraisal; and (b) analyze all sales of the subject property that occurred within the three (3) years prior to the effective date of the appraisal.

The Intended User of this appraisal report is Pietragallo Gordon Alfano Bosick & Raspanti, LLP, as well as OCF Realty. The Intended Use is to evaluate the property that is the subject of this appraisal for marketing to list the home for possible sale, subject to the stated Scope of Work, purpose of the appraisal, reporting requirements of this appraisal report form, and Definition of Market Value. No additional Intended Users are identified by the appraiser.

#### **Final Reconciliation**

The appraisal is based on the information gathered by the appraiser from public records, other identified sources, inspection of the subject property and neighborhood, and selection of comparable sales, listing, and / or rentals within the subject market area. The original source of the comparable is shown in the Data Source of the market grid along with the source of confirmation, if available. The original source is presented first. The source and data are considered reliable. When conflicting information was provided, the source deemed most reliable has been used. Data believed to be unreliable was not included in the report or used as a basis for the value conclusion.

#### Exposure Time

Under Paragraph 3 of the Definition of Market Value, the value opinion presumes that "A reasonable time is allowed for exposure in the open market". Exposure time is defined as the length of time the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at the market value on the effective date of the appraisal. Exposure time is presumed to precede the effective date of the appraisal.

The reasonable exposure period is a function of price, time and use. It is not an isolated opinion of time alone. Exposure time is

different for various types of real estate and under various market conditions. As noted above, exposure time is always presumed to precede the effective date of appraisal. It is the length of time the property would have been offered prior to a

hypothetical market value sale on the effective date of appraisal. It is a retrospective opinion based on an analysis of

past events, assuming a competitive and open market. It assumes not only adequate, sufficient and reasonable time but adequate, sufficient and a reasonable marketing effort. Exposure time and conclusion of value are therefore interrelated. Based on our review of the subject's market, discussions with market participants and information gathered during the sales

verification process, a reasonable exposure time for the subject property at the value concluded within this report would have

been approximately 60-90 days. This assumes an active and professional marketing plan would have been employed by the current owner.

#### CONDITIONS OF APPRAISAL

The appraisal is made "as is" at time of inspection with no repairs, alterations or special conditions required.

The determination of an estimated market value involved a number of processes. After the problem was defined and the work planned, the subject was physically inspected on both the interior and exterior. Sales data was collected from several sources including town hall records, real estate brokers and multiple listing service. When applicable, the Marshall and Swift Residential Cost Handbook has been consulted to estimate reproduction costs. A report of these findings will be included as an attachment to this appraisal.

Items of personal property had no impact on the determination of the appraised value of the subject property.

This appraisal report contains an electronic signature.

#### Definition of Value

The definition of "Market Value", as defined by the Office of the Comptroller of Currency (OCC) under 12 CFR, Part 34, Subpart C

Appraisals,

34.42 Definitions, the Board of Governors of the Federal Reserve System (FRS) and the Federal Deposit Insurance Corporation in compliance with Title XI of FIRREA, as well as by the Uniform Standards of Appraisal Practice as promulgated by the

Appraisal Foundation is as follows;

Market value means the most probable price which a property should bring in a competitive and open market under all conditions

requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by

undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to

buyer under conditions whereby,

1. Buyer and seller are typically motivated;

2. Both parties are will informed or well advised, and acting in what they consider their own best interest;

3. A reasonable time is allowed for exposure in the open market;

4. Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and

5. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what they consider their own best interests; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions\* granted by anyone associated with the sale. (Source: FDIC Interagency Appraisal and Evaluation Guidelines, 2010.)

\* Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concessions based on the appraiser's judgment.

#### STATEMENT OF LIMITING CONDITIONS AND CERTIFICATION

CONTINGENT AND LIMITING CONDITIONS: The appraiser's certification that appears in the appraisal report is subject to the following conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is valued on the basis of it being under responsible ownership.

2. Any sketch provided in the appraisal report may show approximate dimensions of the improvements and is included only to assist the reader of the report in visualizing the property. The appraiser has made no survey of the property.

3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.

4. Any distribution of valuation between land and improvements in the report applies only under the existing program of utilization. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used.

5. The appraiser has no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous waste, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. This appraisal report must not be considered an environmental assessment of the subject property.

6. The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.

7. The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.

8. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that completion of the improvements will be performed in a workmanlike manner.

9. The appraiser must provide his or her prior written consent before the lender/client specified in the appraisal report can distribute the appraisal report (including conclusions about the property value, the appraiser's identity and professional designations, and references to any professional appraisal organizations or the firm with which the appraiser is associated) to anyone other than the borrower; the mortgagee or its successors and assigns; the mortgage insurer; consultants; professional appraisal organizations; any state or federally approved financial institution; or any department, agency, or instrumentality of the United States or any state or the District of Columbia; except that the lender/client may distribute the property description section of the report only to data collection or reporting service(s) without having to obtain the appraiser's prior written consent. The appraiser's written consent and approval must also be obtained before the appraisal can be conveyed by anyone to the public through advertising, public relations, news, sales, or other media.

10. The appraiser is not an employee of the company or individual(s) ordering this report and compensation is not contingent upon the reporting of a predetermined value or direction of value or upon an action or event resulting from the analysis, opinions, conclusions, or the use of this report. This assignment is not based on a required minimum, specific valuation, or the approval of a loan.

IAG230860JB

CERTIFICATION: The appraiser certifies and agrees that:

1. The statements of fact contained in this report are true and correct.

2. The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.

3. Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.

4. Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.

5. I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.

6. My engagement in this assignment was not contingent upon developing or reporting predetermined results.

7. My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.

8. My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.

9. Unless otherwise indicated, I have made a personal inspection of the interior and exterior areas of the property that is the subject of this report, and the exteriors of all properties listed as comparables.

10. Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

	STATEMENT OF ASSUMPTIONS & LIMITING CONDITIONS - The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis
	of it being under responsible ownership. - The appraiser may have provided a sketch in the appraisal report to show approximate dimensions of the improvements, and any such sketch
	is included only to assist the reader of the report in visualizing the property and understanding the appraiser's determination of its size. Unless otherwise indicated, a Land Survey was not performed.
	<ul> <li>If so indicated, the appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other</li> </ul>
	data sources) and has noted in the appraisal report whether the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination. - The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand.
	<ul> <li>If the cost approach is included in this appraisal, the appraiser has estimated the value of the land in the cost approach at its highest and best</li> </ul>
	use, and the improvements at their contributory value. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used. Unless otherwise specifically indicated, the cost approach value is not an
	insurance value, and should not be used as such.
	- The appraiser has noted in the appraisal report any adverse conditions (including, but not limited to, needed repairs, depreciation, the presence
	of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property, or that he or she became aware of during the
	normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any
	hidden or unapparent conditions of the property, or adverse environmental conditions (including, but not limited to, the presence of hazardous
	wastes, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any
	such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the
	appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered as an environmental assessment
	of the property.
	<ul> <li>The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items</li> </ul>
	<ul> <li>The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.</li> </ul>
	<ul> <li>If this appraisal is indicated as subject to satisfactory completion, repairs, or alterations, the appraiser has based his or her appraisal report</li> </ul>
	and valuation conclusion on the assumption that completion of the improvements will be performed in a workmanlike manner. - An appraiser's client is the party (or parties) who engage an appraiser in a specific assignment. Any other party acquiring this report from the
	client does not become a party to the appraiser-client relationship. Any persons receiving this appraisal report because of disclosure requirements
	applicable to the appraiser's client do not become intended users of this report unless specifically identified by the client at the time of the assignment.
	<ul> <li>The appraiser's written consent and approval must be obtained before this appraisal report can be conveyed by anyone to the public, through advertising, public relations, news, sales, or by means of any other media, or by its inclusion in a private or public database.</li> <li>An appraisal of real property is not a 'home inspection' and should not be construed as such. As part of the valuation process, the appraiser performs a non-invasive visual inventory that is not intended to reveal defects or detrimental conditions that are not readily</li> </ul>
	apparent. The presence of such conditions or defects could adversely affect the appraiser's opinion of value. Clients with concerns about such potential negative factors
	are encouraged to engage the appropriate type of expert to investigate.

REASONABLE EXPOSURE TIME AS REFERENCED IN THE DEFINITION OF VALUE INCLUDED IN THIS REPORT IS CONCLUDED TO BE EQUAL TO THE MARKETING TIME REPORTED ON PAGE 1 OF THE REPORT, UNDER NEIGHBORHOOD HOUSING TRENDS.

THE APPRAISER CERTIFIES THAT TO THE BEST OF THE APPRAISER'S KNOWLEDGE AND BELIEF, NO OTHER SERVICES HAVE BEEN PERFORMED, AS AN APPRAISER OR IN ANY OTHER CAPACITY, REGARDING THE PROPERTY THAT IS THE SUBJECT OF THIS REPORT WITHIN THE 3 YEAR PERIOD IMMEDIATELY PRECEDING ACCEPTANCE OF THIS ASSIGNMENT.

THE PORCH/PATIO/DECK ADJUSTMENT LINE ON THE GRID IS NOT ADJUSTED FOR AS IT APPEARS THE DIFFERENCE IN THESE ITEMS IS NOMINAL AND THERE IS NO MARKET REACTION. ALSO THE APPRAISER CAN NOT DETERMINE HOW SUBSTANTIAL THE PORCH, PATIO, OR DECK IMPROVEMENT IS FOR THE COMPS BASED ON THE MLS LISTINGS PROVIDED. IN ADDITION FIREPLACES/WOODSTOVES AND FENCES IN THIS MARKET DO NOT HAVE A MARKET REACTION, SO THEY ARE NOT GRIDDED OR ADJUSTED FOR.

NO PERSONAL PROPERTY WAS INCLUDED IN THE VALUE ESTIMATE.

SELLER'S CONCESSIONS ARE NOT ADJUSTED FOR AS THEY ARE CONSIDERED TO BE COMMON TO THE MARKET AREA AND NOT VALUE IMPACTING. THERE APPEARS TO BE NO MARKET REACTION.

THE ADJUSTMENTS TO THE COMPARABLES WERE DERIVED FROM A COMBINATION OF PAIRED ANALYSIS, MARKET REACTION, INTERVIEWS WITH LOCAL MARKET PARTICIPANTS AND REALTORS, AND IN ALL CASES TO CENTRALIZE THE ADJUSTED VALUE RANGE. WHOLE DOLLAR AND PERCENTAGE MARKET BASED ADJUSTMENTS ARE GROUNDED IN PAIRED SALES ANALYSES. HOWEVER, THERE ARE TYPICALLY TOO MANY DIFFERENCES IN THE VARIOUS VALUE-INFLUENCING CHARACTERISTICS OF A PACKAGE OF FIVE OR SIX COMPARABLES TO RELIABLY EXTRACT EACH ADJUSTMENT DESIRED. CONSEQUENTLY MANY OF THE QUANTITATIVE ADJUSTMENTS THAT ARE USED STEM FROM THE ABOVE NOTED SOURCES AND THE APPRAISER'S BEST ESTIMATE.

THERE IS INSUFFICIENT EVIDENCE TO WARRANT A LIST PRICE RATIO ADJUSTMENT. ALTHOUGH SOME LISTINGS SETTLE BELOW THE LIST PRICE, THERE ARE PROPERTIES THAT SELL AT OR ABOVE THE LIST PRICE. A LIST PRICE RATIO ADJUSTMENT IS SPECULATION BASED ON A BROAD MARKET STATISTIC AND IN THE OPINION OF THE APPRAISER DOES NOT YIELD RELIABLE RESULTS.

PREDOMINATE VALUE : THE SUBJECT NEIGHBORHOOD IS NOT HOMOGENEOUS, AND CONTAINS A WIDE VARIETY OF PROPERTY DESIGNS AND STYLES, WHICH SELL AT A BROAD RANGE OF PRICES. THE PREDOMINATE VALUE SHOWN ON PAGE 1 OF THE URAR, INDICATES THE "MODE", A STATISTICAL TERM REFERRING TO THE MOST FREQUENTLY OCCURRING VARIANT IN A DATA SET. THIS TYPICALLY HAS NOTHING TO DO WITH THE SUBJECT'S RELATIONSHIP WITHIN THE NEIGHBORHOOD, AND SHOULD NOT BE CONSIDERED A BENCHMARK FOR AN OVER OR UNDER IMPROVEMENT. THE SUBJECT'S ESTIMATED VALUE IS WITHIN THE LOW TO HIGH PRICE RANGE FOR THE AREA, AND IS CONSIDERED TO BE AN APPROPRIATE IMPROVEMENT, NOT OVER OR UNDER IMPROVED.

To estimate the highest and best use of a site, the appraiser utilized the four tests of highest and best use.

1. Physically possible

2. Legally permissible

3. Financially feasible

4. Maximally productive

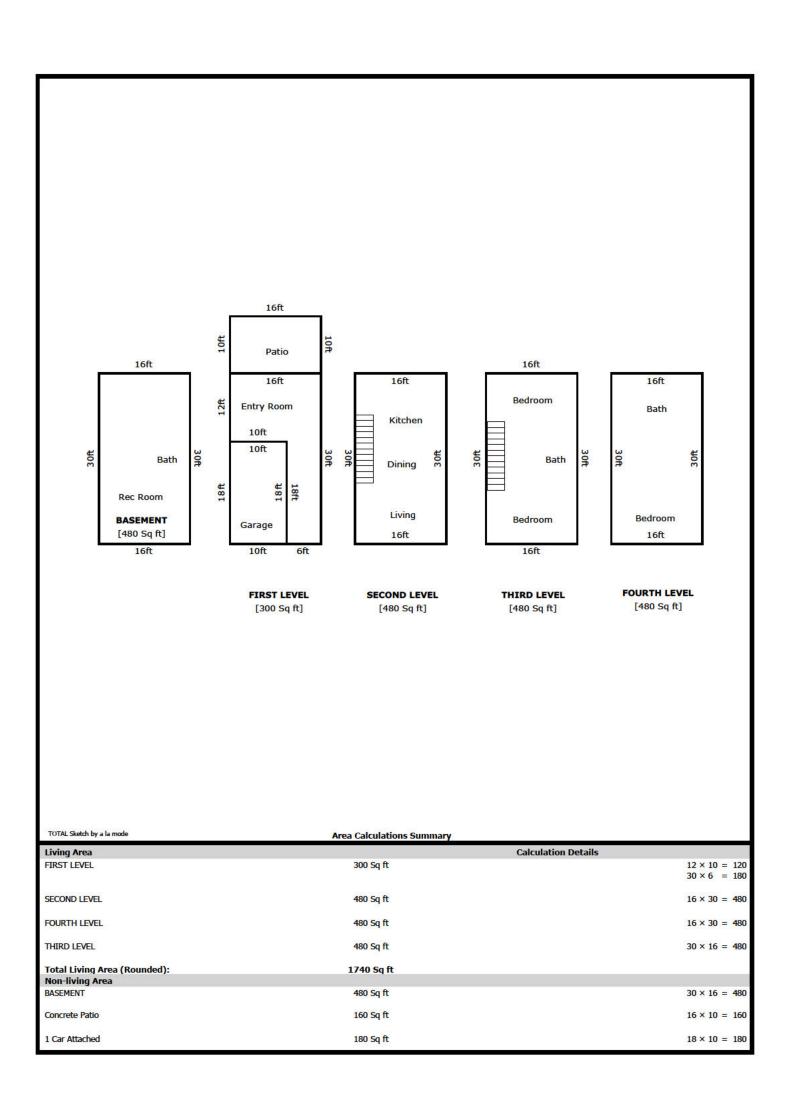

Each potential use of the subject was considered by the appraiser in terms of these four tests

NOTE - THE SUBJECT IS BENEFITED BY A 10 YEAR TAX ABATEMENT ON THE IMPROVEMENT PORTION OF THE TAX ASSESSMENT, THAT THE CITY OFFERS ON NEW CONSTRUCTION. IT ENJOYS A LOWER ANNUAL TAX AS SUCH.

NOTE: The Title Insurance Company reserves the right to insure over encumbrances that may appear of record but which in the commercially reasonable opinion of the Title Insurace Company remain of record due to a failure on the part of previous title companies and/or closing agents, to effect the recording of appropriate terminations and/or satisfactions.

(iv) Any and all other instruments reasonably required by Closing Agent or otherwise necessary to Close the transactions contemplated by this Agreement.

#### 5. **CONDITIONS PRECEDENT TO CLOSING.**

(a) <u>Seller's Conditions</u>. Seller's obligation to Close is conditioned upon the following:

(i) All representations and warranties of Buyer in this Agreement shall have been true in all material respects as of the Effective Date.

(ii) Buyer shall have performed in all material respects all covenants and obligations required to be performed by Buyer on or before the Closing Date.

(iii) Seller shall have received approval of the United States District Court for the Southern District of Florida, Case No. 20-CV-81205-RAR for the Closing pursuant to the terms of this Agreement ("Court Approval"). In the event that Court Approval is not received by Seller within thirty (30) days of the Effective Date, despite Seller's commercially reasonable efforts, Seller may elect in Seller's sole and absolute discretion, to terminate this Agreement by providing written notice to Buyer of Seller's election, whereupon this Agreement and all of the parties' rights and oblgations hereunder shall forever terminate and this Agreement shall be of no further force or effect.

Buyer's Conditions. Buyer's obligation to Close is conditioned upon the (b) following:

All representations and warranties of Seller in this Agreement have been (i) true in all material respects as of the Effective Date.

(ii) Seller shall have performed in all material respects all covenants and obligations required to be performed by Seller on or before the Closing Date.

(iii) Title Insurance Company is irrevocably committed to issue to Buyer an owner's title insurance policy covering the Property with standard coverage customary in the state where the Property is located, showing liability in the amount of the Purchase Price and showing insurable title to the Property vested in Buyer, subject only to the following: (a) Title Insurance Company's standard exceptions; (b) liens for all current general and special real property taxes and assessments not yet due and payable; (c) liens of supplemental taxes, if any assessed; (d) any facts not shown by public records that an accurate survey and/or a personal inspection of the Property would have disclosed; (e) the mortgage/deed of trust/deed to secure debt lien in connection with any Buyer financing; (f) any laws, regulations, or ordinances regarding the use, occupancy, subdivision, or improvement of the Property, or the effect of any non-compliance with or any violation thereof; (g) rights of existing tenants and/or occupants of the Property, if any; (h) covenants, restrictions, easements, and other matters that do not materially impair the value or use of the Property; (i) non-monetary encumbrances disclosed to Buyer in writing prior to entering into this Agreement; and (j) any other matter for which Title Insurance Company agrees to provide insurance at no additional cost to Buyer.

(c) Duty to Cooperate in Good Faith to Resolve. Despite anything to the contrary in this Section, if either party learns that a closing condition is unlikely to be satisfied, such party

shall promptly notify the other party, and both parties shall cooperate in good faith to fairly and promptly resolve the matter, and the party whose closing condition was not satisfied shall not be relived of its obligation to Close unless (i) the other party fails to cooperate in good faith, (ii) fair and prompt resolution is not reached after the parties have cooperated in good faith, or (iii) fair and prompt resolution of the matter on or before the Closing Date would be impracticable.

(d) <u>Waiver of Conditions</u>. Either party may waive its respective closing conditions in its sole discretion. By proceeding to Closing, each party waives its respective closing conditions and irrevocably releases the other party from any liability arising from any facts known by such waiving party that would otherwise have resulted in a failure of a closing condition.

6. CLOSING INSTRUCTIONS TO CLOSING AGENT. At Closing, Closing Agent is irrevocably instructed to do the following:

(a) Record the Deed.

Pay all fees, costs, deed and transfer taxes for the sale of the Property which are (b) required to be paid by Seller and Buyer under this Agreement, the portion of any fees charged by Closing Agent which are payable by Seller and Buyer (if any) and other expenses relating to the sale of the Property which are required to be paid by Seller and Buyer.

(c) Pay to Seller the balance of the Purchase Price and any other funds remaining after Closing.

#### 7. **COSTS AND PRORATIONS.**

Pre-Closing Costs. Buyer and Seller acknowledge that Closing Agent may incur (a) certain costs while processing this transaction which must be paid prior to Closing. Closing Agent is authorized and instructed to release funds for payment of such costs prior to Closing from funds deposited into Escrow by Buyer. Such funds are not refundable and Closing Agent is released from any liability for payment of any such funds pre-released through the Escrow. Closing Agent is authorized to charge the appropriate party for costs incurred, or credit the appropriate party for credits, as applicable at Closing or upon termination of this Agreement.

Prorations. The following shall be prorated as of the date of Closing, in each case (b) based on the number of calendar days in the applicable period and in accordance with local customs: (i) all real property taxes, assessments, utilities and other operating expenses customarily apportioned in similar situations ("Property Expenses"), and (ii) all rents and other income actually received and customarily apportioned in similar situations ("Property Income"). Despite anything to the contrary in this Agreement, insurance premiums will not be prorated, and Seller may cancel any existing insurance on the Property after Closing. If either party receives Property Income or a refund of Property Expenses attributable, in whole or in part, to the other party's period of ownership, the party that received such Property Income or refund shall immediately submit to the other party the portion attributable to such other party's period of ownership. Except as set forth in this Agreement, Seller shall not be responsible for any Property Expenses accruing after Closing. This paragraph shall survive Closing indefinitely.

4

(c) <u>Closing Costs</u>. Seller and Buyer shall pay closing costs as described in the Closing Cost Allocations (and Closing Agent is authorized to (i) pay Seller's costs from Seller's proceeds, and (ii) pay Buyer's costs from funds deposited into Escrow by Buyer).

(d) <u>Settlement Statement</u>. On or before the third business day prior to Closing, Closing Agent shall prepare and deliver to Seller and Buyer a settlement statement setting forth the prorations and cost allocations set forth in this Agreement ("**Settlement Statement**").

#### 8. TERMINATION AND CANCELLATION OF ESCROW.

(a) <u>Termination Resulting from Breach</u>. If Closing does not or cannot occur on or before the Closing Date due to a breach of this Agreement by Buyer or Seller, then the nonbreaching party may terminate this Agreement and cancel the Escrow by written notice to the breaching party and Closing Agent. If Buyer fails to timely deposit the Earnest Money Deposit, then Seller may immediately terminate this Agreement by written notice to Buyer. Upon any such termination and/or cancellation, the breaching party shall pay any cancellation fees of Closing Agent and Title Insurance Company. If Seller is the breaching party, Closing Agent shall return the Earnest Money Deposit to Buyer, and Buyer shall be entitled to pursue remedies at law or in equity. If Buyer is the breaching party, then the following shall apply:

BUYER AND SELLER AGREE THAT IT WOULD BE EXTREMELY DIFFICULT TO DETERMINE SELLER'S ACTUAL DAMAGES **RESULTING FROM A BREACH BY BUYER. IN THE EVENT OF A** BREACH BY BUYER, SELLER SHALL BE ENTITLED TO AN AMOUNT EQUAL TO THE EARNEST MONEY DEPOSIT AS LIQUATED DAMAGES AND AS SELLER'S EXCLUSIVE REMEDY. BUYER AGREES THAT SUCH AMOUNT IS A REASONABLE PRE-ESTIMATE SELLER'S ACTUAL DAMAGES FOR BREACH OF THIS OF AGREEMENT AND IS NOT A PENALTY. IF CLOSING AGENT IS IN POSSESSION OF THE EARNEST MONEY DEPOSIT, THEN CLOSING AGENT SHALL DELIVER THE EARNEST MONEY DEPOSIT TO SELLER. DESPITE THE FOREGOING, IF APPLICABLE LAW LIMITS THE AMOUNT OF THE LIQUIDATED DAMAGES PAYABLE TO SELLER UPON A BREACH BY BUYER, SELLER SHALL ONLY BE ENTITLED TO THE AMOUNT PERMITTED BY LAW, AND ANY EXCESS SHALL BE PROMPTLY RETURNED TO BUYER. (b) <u>Costs Upon Termination and Cancellation of Escrow</u>. Except as otherwise set forth in this Section, upon termination of this Agreement and cancellation of Escrow pursuant to this Section, Seller and Buyer shall be jointly responsible for any cancellation fees of Closing Agent and Title Insurance Company, and all other costs incurred in connection with the transactions contemplated by this Agreement (including, without limitation, payments for loan applications, inspections, appraisals, and other reports) shall be the sole responsibility of the party incurring such costs. (c) <u>Closing Agent Authorization</u>. G. Provided Buyer or Buyer's designee consents, in writing, the Receiver is hereby authorized to amend or otherwise modify the Contract, in writing, as necessary to complete the sale of the Property in the event that the Receiver determines, in his reasonable business judgment, that such amendment or modification is reasonable and necessary, will benefit the Estate, avoid the imposition of any liability upon the Estate, or is required pursuant to the terms of the Contract or any other amendment or modification thereto, provided that any such amendment or modification does not change the material terms of the Contract, including the parties to the Contract and the purchase price for the Property;
